

LUMOS FIREFLY MINI USER GUIDE

LUMOS

INSTALLING FIREFLY MINI

QUICK START GUIDE TO TURN ON YOUR FIREFLY MINI

For more information, visit fireflymini.ridelumos.com

- The Mini's power button has 3 functions:
- Long Press** - From an Off state, it will enter pairing mode. From an On state, it turns off the device.
 - Single press** - Powers on Firefly Mini AND cycles through flash patterns (from an On state).
 - Double press** - Sync flash patterns and tempo to other devices (Mini, Firefly, Helmet)

FIREFLY MINI CHARGING INDICATORS

The Mini comes with 3 LED lights that denote different states of charging:

- Red** - Firefly Mini is charging.
- Green** - Firefly is fully charged.
- Blue** - Mini has temporarily paused charging due to having exceeded optimal temperatures*.

For optimal charging, charge in ambient temperatures of $\leq 86^{\circ}\text{F}$. If charging gets too hot, Firefly Mini will temporarily stop charging to protect itself from overheating. Charging will automatically resume once it has cooled down sufficiently.

PAIRING FIREFLY MINI

For more information, visit fireflymini.ridelumos.com

SYNCING FIREFLY MINI

Ride Sync: Syncing Firefly Mini

To sync your flash pattern across all devices, please double tap the main device you'd like the others to follow suit. For example, if you would like your Mini's pattern to sync to your helmet and Firefly, simply double-tap your Mini.

For more information, visit fireflymini.ridelumos.com

MOUNTING OPTION 1 - SILICONE BANDS

Use the silicone bands provided to mount your Mini Universal Mount if flexibility is desired.

Insert a silicone band of suitable length into one of the hooks on the Mini Universal Mount.

Stretch the band around the desired mounting surface and attach it to the other hook of the Mini Universal Mount.

For more information, visit fireflymini.ridelumos.com

MOUNTING OPTION 2 - CABLE TIES

Use the cable ties provided to mount your Mini Universal Mount as an extra secure, low profile and semi-permanent use case.

The arrows inside the slot indicate which direction the cable ties should go.

Insert the cable ties through the slots on the Mini Universal Mount. The cable tie head should fit snugly within the slot and be completely concealed.

For more information, visit fireflymini.ridelumos.com

MOUNTING OPTION 2 - CABLE TIES

Wrap the cable ties around the desired mounting surface and insert it into the other end of the cable tie's head to secure it.

Tighten it as securely as possible before cutting off any excess cable end.

For more information, visit fireflymini.ridelumos.com

ACCESSORIES: VERSA CLIP

Attach the Versa Clip onto your desired mounting surface such as backpacks, pannier bags, shirts, and pet collars.

Carefully snap the Firefly Mini onto the Versa Clip via the hooks on its sides.

For more information, visit fireflymini.ridelumos.com

HELMET PORT ADAPTER

Carefully snap the Firefly Mini onto the Helmet Port Adapter via the hooks on its sides and magnetically snap it into a Lumos Ultra Fly or Ultra Fly Pro helmet

For more information, visit fireflymini.ridelumos.com

IDENTIFY YOUR FIREFLY MINI AT A GLANCE

All Lumos Firefly Mini come with a set of navigational stickers to tell all your Firefly Mini lights apart.

When using multiple Firefly Mini lights in your setup, place the sticker corresponding to its profile in the indentation of the slim adapter.

SPECIFICATION OF RADIO TRANSMISSION

Product: Lumos Firefly Mini
Model Number: LBLFFMN
Power Output: 0.6W
Charging Input: 0.7W

Hereby, Lumos Labs International Pte Ltd. declares that the radio equipment type Lumos Firefly Mini is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: lumoshelmet.co/EU_DOC

IC Statement
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux flux RSS exempts de licence de Innovation, Science et développement économique Canada. L'exploitation est soumise aux deux conditions suivantes:
(1) cet appareil ne doit pas causer d'interférences.
(2) ce dispositif doit accepter toute interférence, y compris toute interférence susceptible de provoquer un fonctionnement indésirable du dispositif.

FCC - Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
